Teaching and learning

You will be based at our modern Marylebone Campus, where facilities include our purpose-built Financial Markets Suite. This teaching resource utilises the Bloomberg platform, giving you first-hand exposure to technology widely adopted in leading financial institutions. Teaching methods range from active student learning through seminars, workshops, problem-based and blended learning, to the innovative 'learning by doing' approach employed in our Entrepreneurship BA Honours. We have strong links with some of London's most successful and innovative businesses, giving you the chance to learn from practising professionals via work placements and establish your own contacts while still a student.

Employability

Your experiences as a business and management student will help you to become global in outlook and socially, environmentally and ethically aware. You have the opportunity to complete a work placement between Years 2 and 3, to broaden your knowledge of business, develop your practical skills and enhance your employability. Alternatively, you may study overseas for a year or a semester at one of our partner institutions. Our graduates have gone on to start their own businesses as well as building successful careers in a variety of sectors including accounting, management consultancy, retailing and small business management.

"I would strongly suggest placement seekers start searching early to be able to find the best company that offers them the best opportunities. I landed an exciting placement opportunity with McDonald's. After an intense training period, I was promoted to Shift Manager, with responsibility for the day-to-day managing of a crew of 35 people. We welcome applications from students who do not have the entry requirements outlined. The University will consider applications on the basis of evidence of personal, professional and educational experience, which indicates applicants' ability to meet the demands of the degree. Applicants will be interviewed before an offer is made. The candidates must be able to demonstrate an ability to work effectively in teams and be self-motivated. Candidates should also be independent learners with an interest in entrepreneurship.

We are unable to accept applications for this course from students who require a Tier 4 visa to study in the UK. This is due to the course requirement to set up a company, which is not allowed for Tier 4 students under UK immigration rules. If you hold a different type of UK visa and would like to know if you are eligible to study on this course, please contact the UKVI Compliance team at tier4visas@westminster.ac.uk.

This innovative course – based on a 'learning by doing' approach – combines the worlds of business entrepreneurship and higher education. You will create a business by setting up a team-company with like-minded students. Instead of lessons, you will have coaching sessions and various projects with your team-company. You will learn by doing real business with real customers, generating real revenue.

This approach was developed two decades ago in Finland and is being delivered successfully by universities in France, Spain, Hungary and the Netherlands. As a student on the course you will be part of an international network, with excellent opportunities for collaborative learning and entrepreneurship. By the end of the course you will be able to demonstrate professional entrepreneurial, business management and leadership skills.
